Bridge Project Update

Great news for the community! The sidewalk through the Fort Pierre plaza is now re-opened and fully accessible to the public. Crews will finish grading and backfilling in that area over the next week, weather permitting.

The temporary detour sidewalk has been fully removed, and that section will be graded and seeded in the coming days to restore the site to its final condition.

Crews are now focused on final cleanup and remaining punch list items, with nearly all project activities wrapping up soon.
